ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

TODAY & TOMORROW

SEPTEMBER 1-14, 1984

(Newsbriefs continued)

The artwork of Sister Adele, OP, will be displayed at the Faculty/Alumni House, from September 1 to November 30. Artist-in-residence at Dominican College of San Rafael, Sister Adele is well-known for her work in color photomontage—the superimposition of multiple images.

She is winner of the 1983 Women in Design International Competition, and is represented in some 40 public and corporate collections, including the Metropolitan Museum of Art in Manila, the Bibliotheque Nationale in Paris, the Library of Congress, Washington, DC, the Grunwald Center for Graphic Arts at UCLA, the Oakland Museum, San Francisco General Hospital, Bank of America, Barclays Bank, Crocker Bank, Foremost-McKesson, and Standard Oil.

A reception for the artist will be held at the opening on Tuesday, September 25, from 4:30 to 7 p.m. at the Faculty/Alumni House, 745 Parnassus Avenue. For further information call x4723.

Six presidents of the Friends of Langley Porter Psychiatric Institute and seven of the LPPI Alumni-Faculty Association were honored at a reception on August 16 at the Transamerica Building.

Honored for their dedicated work were Friends of LPPI presidents Connie Parsons Pickel, LCSW (current), Mabel Schine (1979-82), Jay Darwin (1977-79) (posthumously), Donald Doyle (1975-77), Albert Aramburu (1974-75), Libby Denebeim (1972-74), and LPPI Alumni-Faculty presidents Stephen G. White, PhD (current); Stephen Walters, MD (1983-84), Marilyn Rajokovich, RN (1982-83), Charles David, MD (1981-82), Lawrence Lurie, MD (1980-81), Herbert Peterson, MD (1979-80), and Betty L. Kalis, PhD (1978-79).

Posters of the Diego Rivera oil painting, "La Tortillera," which hangs in the lobby of SFGH, are now on sale for $20 in the SFGH Gift Shop and the Millberry Union Book Store. The 1926 painting was donated to UCSF with the stipulation it be hung at SFGH where the original owner, the late thoracic surgeon, Leo Eloesser, MD, served for 36 years. The reproduction is of a work by Mexico's noted naturalist and artist. Proceeds from the poster sales go to SFGH patient care.

Richard B. Hickman, a mathematician from Lawrence Livermore National Laboratory, has been elected to serve a four-year term on the UCRS Board. Hickman received an unprecedented 2,716 votes from a record total of 10,864 votes cast during the recent election.

Nikon Inc., Instrument Division, has donated two of its newest microscopes to the School of Medicine. The SMZ-1 Zoom Stereo microscope and the Alphaphot compound microscope were given "as part of [Nikon's] ongoing commitment to the needs of the medical community," and will be used in the Department of Anatomy.

If you have lost personal property or have had something stolen while on campus, you should periodically check with the Lost and Found section of the UCSF Police Department.

The Police Department holds all lost and found articles for three months, then auctions or otherwise disposes of them. For further information, contact the Lost and Found section at x2454.

The UCSF Police Department also has suggestions on how to make your home safer. For a free home security survey form, contact the crime prevention/loss control officer at x1414.

The 18th Annual John E. Gurley Lecture will be held on Friday, September 21, at the Holiday Inn Golden Gateway, SF.

Three School of Dentistry faculty will address the topic "Current Problems in Dental Practice." Individual discussions will be:

- "Oral Candidiasis in the Healthy & Compromised Patient—An Increasing Problem." Sol Silverman, Jr., DDS, professor and chair, Division of Oral Medicine. 9-10:30 a.m.
- "Update on Local Anesthesia." Richard Smith, DDS, associate professor, oral and maxillofacial surgery. 11 a.m.-12:30 p.m.
- "The Use of Hydroxylapatite in the Treatment of Difficult Denture Patients." O. Ross Beirne, DMD, PhD, assistant professor, oral surgery. 2-3:30 p.m.

To register contact School of Dentistry Postgraduate Education at x1101.

A limited number of private, enclosed garages in campus-owned buildings are now available for parking. Each garage, which is equipped with an automatic door control, rents for $65 per month. The fee also includes parking in the Millberry Union garage from 2:30 p.m. to 8 a.m. weekdays and all day weekends and University holidays. Assignments are on a first-come, first-served basis. For further information contact the Parking Office at x2566.

DEADLINE

Deadline for the next issue of *Today & Tomorrow,* covering the time period Sept. 15-28, will be **Tuesday, Sept. 4, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

HCFA head Davis to speak on health care financing, Sept. 20.

Carolyne K. Davis, RN, PhD, the first woman to hold the position of administrator of the Health Care Financing Administration, US Department of Health and Human Services, has been appointed this year's School of Nursing Regents' Lecturer.

Davis will talk on prospective payment issues on Thursday, September 20, from 1:30 to 3 p.m. in Cole Hall.

Davis oversees the Medicare and Medicaid programs, which help to finance health care services for 50 million poor, elderly, and disabled Americans. Prior to HCFA, Davis was associate vice president for Academic Affairs at the University of Michigan.

Twelve experts in the area of psychiatry will take part in the Grete Simpson Visiting Lecture Series sponsored by the Department of Psychiatry. This second annual series, to last through the academic year, will be part of Psychiatry Grand Rounds on Thursdays from 11 a.m. to 12:30 p.m. in HSW 301, (unless otherwise noted). Presenters for September and October will be:

- Sept. 13: William E. Bunney, MD, professor and chair, psychiatry, UC-Irvine. "Psychobiological Studies of Mania." Also to present "An Afternoon Discussion Seminar with Dr. Bunney." LPPI Auditorium. 1:30-3 p.m.
- Sept. 20: Louis W. Sander, MD, professor, psychiatry and child psychiatry, University of Colorado Medical Center. "Complexity & Unity: Resolution of Paradox in Psychobiological Development."
- Oct. 4: D. Frank Benson, MD, August S. Rose Professor of Neurology, UCLA. "The Diagnosis of Dementia: PET Scan Correlations." Also to present "Psychiatric Aspects of Epilepsy." LPPI Auditorium. 3-4 p.m.
- Wed., Oct. 10: Myrna Weissman, professor, psychiatry and epidemiology; director, Depression Research Unit, Yale. "Depression in Families." (Part of VAMC Grand Rounds). VAMC Auditorium, Building 7. 12:30-1:30 p.m. Also to

(continued inside)

The city's first medical clinic aimed at helping runaways and homeless youth is now in operation by UCSF physicians from SFGH.

Based in the Larkin Street Youth Center, the new service is a direct result of a study earlier this year that found a high incidence of serious medical and psychological problems among the young homeless.

Nicolette Collins, MD, UCSF assistant clinical professor of pediatrics, who collected the first statistics on health problems in runaways, is now one of two physicians staffing the medical clinic one-half day a week.

"Centers for homeless youth traditionally focused on helping them find shelter, jobs, and possibly psychiatric counseling. Medical attention was almost always overlooked," said Collins.

Now all young people who pass through the Larkin Street Youth Center will be required to undergo a physicial examination and screening for problems that are common among street youth and prostitutes. Minor problems will be treated at the clinic, with serious disorders referred to SFGH or outside physicians.

The new clinic is funded with a grant from the Robert Wood Johnson Foundation.

Some of UCSF's major social and behavioral science programs—among them the PhD programs in Aging and Mental Health, Health Psychology, and Human Development and Aging—all in the Department of Psychiatry—and the Medical Anthropology Program in the Department of Epidemiology and International Health have developed a plan to create a multidisciplinary UCSF Center for Social and Behavioral Sciences.

As of Thursday, September 6, these programs will be located under one roof for the first time, at Laguna Honda School, 1350-7th Avenue. Together the programs will be able to integrate teaching and research, enhance their potential for federal grants, and increase their visibility in the areas of social, behavioral and cultural factors related to health.

Vol. 10 No. 16, Sept. 1-14, 1984

UCSF
University of California, San Francisco . . . A Health Sciences Campus

ORTHOGNATHIC SURGERY CONFERENCE. C 701. 8 a.m.

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

NEW EMPLOYEE ORIENTATION: *UCSF Policies, Procedures, Benefits, & Campus Tour.* Presented every other Tuesday. All new employees are urged to attend. Toland Hall. 8:30 a.m.-12:30 p.m. To register call x1645.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE. Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

INTERNATIONAL FOLK DANCING. Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. 1-2:15 p.m.

INTRODUCTION TO HOSPITALS & CLINICS. For new employees in Hospitals & Clinics areas. Presented every other Tuesday. M 169. 1:45-3:30 p.m. Supervisors call Nancy, x1401.

5 WEDNESDAY

HAND SURGERY CONFERENCE: *Flexor Tendon Surgery.* William Lineaweaver, Plast. Surg., SFGH. 7-8 a.m.

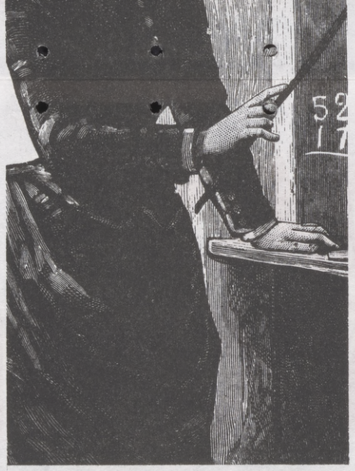
DERMATOLOGY GRAND ROUNDS: *Advances in Pediatric Dermatology.* William Weston, Derm., U Colorado. Letterman Hosp. Aud. 8-9 a.m.

PRIMARY CARE LECTURE SERIES: *MediCal, Medicare, National Health Insurance.* Joseph Barbaccia, FCM. *Periodic Health Exams.* Paul Heineken, Med., VAMC. A 455. 10 a.m.-noon.

MEDICINE GRAND ROUNDS: *Evaluation & Treatment of Intractable Cough.* Michael S. Stulbarg, Med. *The Immunoepidemiology of Gram-Negative Sepsis.* J. McLeod Griffiss, Lab. Med. & Med. Cole Hall. 10:30 a.m.-noon.

BROWN BAG TOURS LECTURE SERIES: *Kicking the Habit.* Steven R. Cummins, Med. Tapes of all talks available for listening in HSE 345, SIMA Unit, UCSF Library. For further information call x4394. HSW 303. Noon. Free.*

PATHOLOGY GRAND ROUNDS: *Breast Pathology II.* Werner Rosenau, Path. & CRI. HSW 508. 5-6 p.m.



WOMEN'S RESOURCE CENTER WORKSHOP: *Beginning Investment Workshop for Women.* Marjorie Hilsenrad, investment counselor. Toland Hall. 1 p.m. Call x5836.

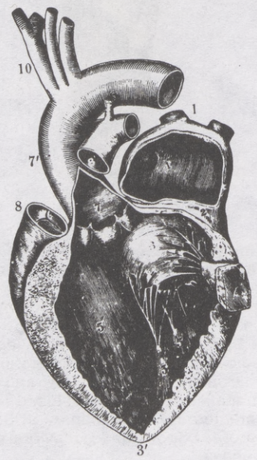
NEURO-ONCOLOGY CONFERENCE. L 34. 12:30-2 p.m.

COMBINED HEMATOLOGY/ONCOLOGY ROUNDS. M 1296. 1:30-2:30 p.m.

ORTHOPAEDIC SURGERY CLINICAL GRAND ROUNDS. A 630. 4 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1361. 4-6 p.m.

PEDIATRIC UROLOGY CONFERENCE. Barry A. Kogan, Ped. Urol.; guest lecturer Casimir Firlit, Urol., Northwestern U; & George Kaplan, Urol., UCSD. M 460. 4-6 p.m.



PRIMARY CARE GRAND ROUNDS: *Ambulatory Management of Congestive Heart Failure.* William W. Parmley, Med. A 455. 4:30 p.m.

RADIATION ONCOLOGY GRAND ROUNDS: *Adaptive Response of Human Lymphocytes to Low Concentrations of Radioactive Thymidine.* Sheldon Wolfe, Lab. Radiobio. & Env. Hlth., Radiol., & Anat. L 34. 5 p.m.

RADIOLOGY GRAND ROUNDS: *Evaluation of Vertebral Trauma.* Michael Brant-Zawadzki, Radiol. HSW 303. 5-6 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5-6:30 p.m.

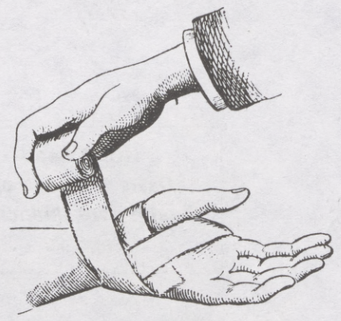
CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

PATHS OF HEALING & WHOLENESS SEMINAR: *Healing Care—Mindless Healing.* Lisa Hathaway. N 517. Noon-1 p.m.

8 SATURDAY

ANESTHESIA MORBIDITY/MORTALITY CONFERENCE. HSW 303. 8-10 a.m.

UROLOGY GRAND ROUNDS: *Experience with Wilms' Tumor.* Paul F. Alpert, Urol. *Hypospadias.* Guest lecturer Casimir Firlit, Urol., Northwestern U. HSW 300. 9:30-10:30 a.m. Preceded by Deaths & Complications Reports & Selected Cases. Emil A. Tanagho, Urol. 8:30-9:30 a.m.



PLASTIC SURGERY TEACHING CONFERENCE: *Replantation: Indication & Long-Term Results.* Ron Milliken, Surg., Ralph K. Davies Med. Cntr. S 1364. 10 a.m.

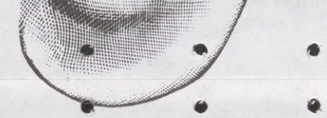
10 MONDAY

OTOLARYNGOLOGY DEPARTMENTAL ROUNDS. S 214. 7:30-10:30 a.m.

LABORATORY MEDICINE CORE CURRICULUM IN MICROBIOLOGY: *Chlamydia.* Julius Schachter, Lab. Med. *Legionella & Haemophilus.* Mary York, Lab. Med. L 535. 2-3:30 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *Prenatal Diagnosis of Genetic Defects.* Mitchell S. Golbus, Ob/Gyn & Ped. L 535. 4-5 p.m.

UROLOGY RADIOLOGY CONFERENCE. Emil A. Tanagho, Urol. M 460. 4:30-6 p.m.



DERMATOLOGY GRAND ROUNDS: *Dermatology, Mammology, Anthropology, & Ear Wax.* Nicholas Petrakis, Prev. Med., Epid. & Intl. Hlth. HSW 302. 8-9 a.m.

PRIMARY CARE LECTURE SERIES: *Oral Manifestations of Systemic Disease.* Henry Chinn, Stomatol. A 455. 10 a.m.-noon.

MEDICINE GRAND ROUNDS: *Herpes Simplex Virus: Biology, Clinical Features, & Treatment.* John Mills, Med., SFGH. *Advances in Herpes Simplex Virus.* Richard D. Dix, Med. Cole Hall. 10:30 a.m.-noon.

BROWN BAG TOURS LECTURE SERIES: *Is it Pain or is it Gain?* Marvin H. Bloom, Ortho. Surg. & Inst. for Sports Med., Ralph K. Davies. Tapes of all talks available for listening in HSE 345, SIMA Unit, UCSF Library. For further information call x4394. HSW 303. Noon. Free.*

TRISERVICES CARDIOLOGY CONFERENCE. C 130. 4-5 p.m.

PEDIATRIC NEUROLOGY ROUNDS. M 666. 4:30 p.m.

GU PATHOLOGY SEMINAR. M 460. 4:30-6 p.m.

PATHOLOGY GRAND ROUNDS: *Liver Pathology I.* Linda Ferrell, Path. HSW 508. 5-6 p.m.

13 THURSDAY

OPHTHALMOLOGY GRAND ROUNDS: *YAG Lasers & Capsulotomies.* Michael Drake. Oph. S 214. 9:15 a.m. Preceded by Patient Exams & Discussions: *Plastics.* Crowell Beard, Oph. 8 a.m.

PEDIATRIC GRAND ROUNDS: *The Uses & Abuses of Medical Information: Medical Decision Making in the Information Era.* David Bergman, Ped. *The Automated Discovery of Causal Hypothesis for a Large Ambulatory Clinical Data Base: The Radix Project.* Robert Blum, Med., Stanford. S 664. 8:30 a.m.

PROCTOR FOUNDATION RESEARCH SEMINAR. For topic & speaker call x1442. Hind Library, 95 Kirkham St. 11 a.m.

NEUROLOGY ROUNDS: *Respiratory Dysfunction in Neurologic Disease.* Roger P. Simon, Neuro., SFGH. S 664. 11 a.m.-12:05 p.m.

Education & DHC. David Altman, Med. La Mereduquesne Restaurant, SF. 6:30 p.m. Call x1471.

14 FRIDAY

AMERICAN ASSOCIATION FOR PARTIAL HOSPITALIZATION INC. 28TH ANNUAL CONFERENCE. Holiday Inn Golden Gateway. Sept. 14-16. For registration & volunteer info. call 864-0207. Sponsored by Psychr. Dept., SFGH.

PULMONARY PHYSIOLOGY SEMINAR: *UCSF Case Presentations.* L 1361. 8:10-9:30 a.m.

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

CONSULTATIVE TUMOR BOARD. L 34. 10:45 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

PATHS OF HEALING & WHOLENESS SEMINAR: *Spirituality & the Medical Model.* Fred Hiatt. C 130. Noon-1 p.m.

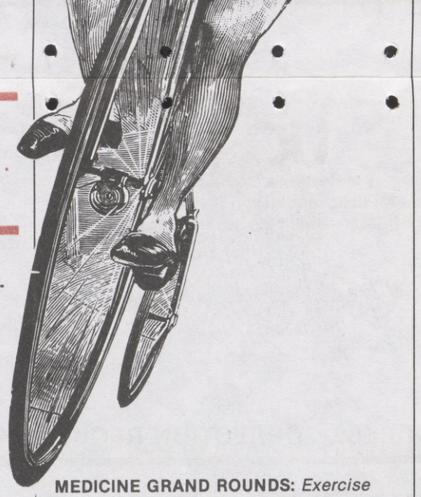
SELF DEFENSE CLASSES

For more information call x5683.

WOMEN'S REVIEW CLASS. Wed., Sept. 19-Oct. 17. 6:30-8:30 p.m. $25.

WOMEN'S 8-WEEK CLASS. Mon., Sept. 10-Oct. 29 or Tues., Sept. 11-Oct. 30, 6:30-9:30 p.m. $25 campus, $45 general.

WOMEN'S ONE-DAY WORKSHOP. Sat., Sept. 29 & Oct. 27. 9 a.m.-5 p.m. $10 campus, $30 general.



MEDICINE GRAND ROUNDS: *Exercise Stress Testing: Current Status.* Nora Goldschlager, Med., SFGH. Carr Aud. 11:30 a.m.

THURSDAY 13

NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCE: *Maxillofacial Trauma.* Guy Trengove-Jones, Plast. Surg. Rm. 4H40. 8:30 a.m.

NORTHERN CALIFORNIA OCCUPATIONAL HEALTH CENTER CONFERENCE: *Cancer: How Much is Occupational?* Linda Rudolph, Pub. Hlth., HESIS. Carr Aud. 8:30-10 a.m.

FAMILY PRACTICE GRAND ROUNDS: *Antibiotic Prophylaxis: Principles & Practice.* John Conte, Med. Carr Aud. 12:30-1:30 p.m.

FRIDAY 14

MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H40. 7:30 a.m.

CONTINUING EDUCATION

DENTISTRY

Held in C 701 unless otherwise noted. Call x1101.

Nonsurgical Endodontics. Stockton, CA. Sept. 13.

Restorative Dentistry. Sept. 14.

John Gurley Memorial Lecture. Holiday Inn Golden Gateway, SF. Sept. 21. (See Newsbriefs for details.)

Periodontal Prosthesis. Sept. 28.

Management of Craniomandibular (TMJ) Pain Patients. Sept. 29.

MEDICINE

Call x4251, unless otherwise noted.

International Symposium on Mass Spectrometry in the Health & Life Sciences. Sheraton-Palace Hotel, SF. Sept. 9-13.

Intensive Course in Adolescent Obesity. Cole Hall. Sept. 13-14.

Office Procedures for the Practicing Physician. Holiday Inn Golden Gateway, SF. Sept. 17-21.

Recent Advances in Pulmonary & Critical Care Medicine. Hotel Meridien, SF. Sept. 20-22. Call x5208.

NEWS BRIEFS

(Simpson Lectures continued)

present "Psychotherapeutic & Medication Treatments for Depression: Research Findings." LPPI Auditorium. 2:30-3:45 p.m.

• Oct. 18: Thomas Insel, chief, Brain and Behavior Unit, Laboratory of Clinical Science, NIMH. "Psychobiology of Obsessive-Compulsive Disorders."

For further information contact Jeffrey Cohen, MD, x77-305.

J. Michael Bishop, MD, Harold E. Varmus, MD, and Yuet Wai Kan, MD, are among eight scientists to receive the 1984 Gairdner Foundation International Awards on October 25, in Toronto, Canada.

The prestigious awards recognize important discoveries in the field of medical science, and many past recipients have gone on to win the Nobel Prize.

Bishop, director of the Hooper Foundation, and Varmus, professor of microbiology, were cited specifically for their work with oncogenes "which has had a remarkable effect on cancer research."

Kan, professor of medicine, laboratory medicine, and biochemistry/biophysicis, was cited for his discovery that the blood disease thalassemia can be caused by one of several genetic abnormalities and for developing gene-mapping techniques used to diagnose genetic diseases.

John A. Clements, MD, UCSF professor of pediatrics and a senior member of the CVRI, was one of six scientists who received 1983 Gairdner Awards.

The awards, which are for $15,000 each, are given by the Gairdner Foundation, established in 1957 by the late James Arthur Gairdner and his family in Toronto. Since then the Foundation has awarded some $1.5 million to 170 scientists working in the field of medicine.

UC President Gardner has approved the name change of the Department of History of Health Sciences to the Department of History and Philolophy of Health Sciences. The new name reflects the broader scope planned for this department, according to Dean Rudi Schmid. A search now is underway for a new chair of the department. Former chair Gert Brieger left UCSF to become the William H. Welch Professor and director of the Institute of the History of Medicine at Johns Hopkins.

A new public research fund has been established at SFGH to support research, patient care, and education on AIDS.

The fund, started with a contribution from Loy Elser, a director of SF's Atlas Savings & Loan Association, is now up to an estimated $25-30,000 and will continue to be built with contributions from the public. The fund offers an opportunity for "friends and families of AIDS patients to be able to make memorial contributions that will benefit other patients suffering from the same disease," Elser said.

The new fund will be administered by the office of David Werdegar, MD, associate dean for the UCSF School of Medicine at SFGH.

UCSF faculty at the UCSF-affiliated SFGH and VA hospitals as well as on the Parnassus campus are involved in what has become one of the foremost centers for AIDS research and treatment in the country. In July of 1982 the first special inpatient unit for treating seriously ill AIDS patients was opened at SFGH. Plans already are under way to expand the 12-bed unit to a 24-bed ward. The SFGH outpatient clinic also records some 1,000 patient visits a month.

Donations to the fund should be sent to the AIDS Research Funds for SFGH, c/o UCSF Foundation, 532 Parnassus Ave., SF, CA 94143.

Recent advances by UCSF researchers into the AIDS epidemic include:

• A group of virologists have found antibodies to a recently discovered retrovirus, currently the prime suspect in causing AIDS, in 100 percent of 86 AIDS patients tested, and have isolated the retrovirus from nearly half of 45 AIDS patients examined. The study indicated that the virus suspected of causing AIDS shows no signs of having spread to the heterosexual population, even though it is "prevalent" among San Francisco gay men.

• UCSF researchers at SFGH and Mount Zion Hospital are participating in a six-hospital study to determine whether a new drug can fight a virus, called cytomegalovirus or "CMV," that can be deadly for patients with compromised immune systems.

• A collaborative study of 90 gay men across the country with non-Hodgkin's lymphoma—fast-growing tumors in the bone marrow, central nervous system, or abdomen—closely links the rare cancer to AIDS and generalized lymphadenopathy, and concludes that Hodgkin's lymphoma in homosexual men is a serious manifestation of AIDS and the AIDS-related complex.

Public awareness of child sexual abuse is leading to a doubling in numbers of documented cases and also to new insights into the problem, reports UCSF psychiatrist Graeme Hanson, MD.

Reported cases in San Francisco jumped from 205 in 1979 to 389 in 1983. And cases may surpass 500 this year, estimates Hanson, assistant clinical professor of pediatrics and psychiatry at SFGH, who is chair of Mayor Feinstein's newly-formed Advisory Council on Children, Youth and Families and a member of the state committee that is establishing a medical protocol for dealing with sexual abuse victims. He also serves as a consultant to the SFGH-based Child and Adolescent Sexual Abuse Resource Center, which has been gathering the statistics and sees an estimated 90 percent of reported cases in San Francisco.

The seven-year-old program is operated by the City and County of San Francisco under the UCSF Division of Forensic Medicine.

Clifford Attkisson, PhD, professor of medical psychology and associate dean of the Graduate Division, and Gregory C. Pascoe, PhD, a 1984 graduate of the Health Psychology Program, served as guest editors of a special double issue of *Evaluation and Program Planning* (Vol. 6, No. 3 & 4, 1983).

Entitled "Patient Satisfaction in Health and Mental Health Services," the volume contains 18 papers by 23 scholars, including literature reviews for both the primary health care and mental health fields, conceptual and integrative papers, meta-analyses, and original research reports.

The primary goal was to present a comprehensive overview of patient satisfaction research in health and mental health services. Historically, research in these two fields has evolved in a parallel fashion, often without the benefit and stimulation of mutual exchange, said Attkisson.

UCSF investigators have begun national clinical trials of a new multi-channel cochlear implant which shows great promise in providing speech recognition to persons who are profoundly or totally deaf.

The implant, a four-channel electronic device developed through UCSF research over the past two decades, will be manufactured by Storz Instrument Company of St. Louis, MO. The device is superior to previous models because it provides the greatest possibility for deaf persons to comprehend speech without lip-reading cues.

The new device represents the optimum cochlear implant design currently available in terms of safety, reliability, bio-compatibility, and multi-channel stimulation, according to UCSF investigators, who also are working to perfect six- and eight-channel devices for human implantation in the near future.

Co-directors of the cochlear implant clinical trials are Robert Schindler, MD, associate professor of otolaryngology, who is implant project clinical director; and Michael Merzenich, PhD, professor of otolaryngology and physiology, who is implant project research director.

Eight UCSF experts will present talks to some 200 students—all of them senior citizens—as part of a medical lecture series of the Fromm Institute for Lifelong Learning at the University of San Francisco. All lectures will be given on Wednesday from 10 to 11:30 a.m. in University Center Building, Room 413, USF:

• Sept. 12: "New Horizons in Reproductive Medicine & Biology." Robert B. Jaffe, professor and chair, ob/gyn and reproductive sciences;

• Sept. 19: "Pharmacologic Agents & the Treatment of Emotional Problems." Leon J. Epstein, professor and vice chair, psychiatry;

• Sept. 26: "Genetic Engineering & the Solution of Medical Problems." William J. Rutter, director, Hormone Research Lab;

• Oct. 3: "Both Ends of Life: The Ethics of Reproductive & Geriatric Medicine." Albert R. Jonsen, professor, ethics, medicine and pediatrics;

• Oct. 10: "Arthritis: An Overview." Ephraim P. Engleman, director, Rosalind Russell Medical Research Center for Arthritis;

• Oct. 17: "New Drugs & Devices: Are They Safe & Effective?" Jere E. Goyan, dean, School of Pharmacy;

• Oct. 24: "The Scientific Renaissance of China." John B. de C.M. Saunders, chancellor emeritus and professor emeritus, history and philosophy of health sciences;

• Oct. 31: "Problems with Absorption from the Intestine." John V. Carbone, professor, medicine.

UCSF faculty, staff, and students wishing to audit the lectures should contact the Fromm Institute at 666-6805.

A "faculty development" program for new and junior faculty will be held on Wednesday, September 26, at the Faculty-Alumni House, 745 Parnassus Avenue.

Sponsored by the Office of the Senior Vice Chancellor of Academic Affairs and the Academic Senate Committee on Equal Opportunity, the program is intended to acquaint faculty with the organization and structure of the campus, responsibilities and activities of the Academic Senate, availability of research funds, and the faculty review process. Advanced graduate students and postdoctoral fellows also are invited to attend.

Those wishing to attend should contact Keith R. Wilson at x5742 or x2218 no later than Monday, September 17.

The hallway area outside HSW 301 is under construction to enlarge the classroom from its present seating capacity of 170 to at least 200 people. The enlarged classroom will be ready for the first class on Monday, September 10, with new carpeting to be installed at a later date.

This hallway area can no longer be used as a thoroughfare, however the main lobby outside classrooms HSW 300, 302, and 303 remains open.

A second HSW classroom will be renovated next summer. The construction is the result of a 1982 Academic Senate study that noted deficiencies in these rooms.

HONORS & AWARDS

William Epstein, professor & chair, dermatology; acting chief, dermatology, SFGH: Named president of the Society of Investigative Dermatology. **Ervin Epstein, Jr.,** associate clinical professor, dermatology, named secretary-treasurer.

Seymour Grossman, clinical professor, medicine: Awarded a three-year, $292,000 National Cancer Institute grant to study colonoscopic screening of patients with risk factors for colon cancer, at Kaiser-Permanente Medical Center, Oakland, where he is chief of gastroenterology.

Evalyn S. Gendel, clinical professor, psychiatry; director, Sex Therapy & Counseling Clinic, Department of Psychiatry: Honored as the 1984 Outstanding Alumna, Newcomb College of Tulane University, and elected to the Newcomb National Committee.

Frederick L. Dunn, professor, epidemiology & medical anthropology; vice chair, epidemiology & international health: Appointed a member of the National Research Council's Office of International Affairs steering committee for the 1984-85 study of US Capacity to Address Tropical Disease Problems.

PUBLICATIONS

Eric T. Herfindal, chair & clinical professor, Division of Clinical Pharmacy; director, pharmaceutical services; **Joseph L. Hirschman,** associate clinical professor, clinical pharmacy: Co-editors of *Clinical Pharmacy & Therapeutics* (Williams & Wilkins, Baltimore, 1984).

Michael R. Harrison, associate professor, surgery; co-director, Fetal Treatment Program; **Mitchell S. Golbus,** professor, ob/gyn & pediatrics; director, Prenatal Diagnosis Program; **Roy A. Filly,** professor, radiology, ob/gyn & reproductive sciences; chief, ultrasound diagnostic section: Coauthors of *The Unborn Patient—Prenatal Diagnosis & Treatment* (Grune & Stratton, Inc., 1984).

Laurence J. Marton, professor & chair; **Pokar M. Kabra,** associate professor, both laboratory medicine: Co-editors of *Clinical Liquid Chromatography: Volume I—Analysis of Exogenous Compounds; Volume II—Analysis of Endogenous Compounds* (CRC Press, Boca Raton, Fla., 1984).

Bruce O. Berg, professor, neurology; director, child neurology: Author of *Child Neurology—A Clinical Manual* (Jones Medical Publications, Greenbrae, CA, June 1984).

Patricia E. Benner, associate professor, physiological nursing, School of Nursing: Author of *Stress & Satisfaction on the Job: Work Meanings & Coping of Mid-Career Men* (Praeger Scientific Press, NY, 1984).

Charles B. Wilson, professor & chair, neurological surgery; director, Brain Tumor Research Center: Co-editor of *Current Neurosurgical Practice, Volume I—Intracranial Arteriovenous Malformations* (Williams & Wilkins, Baltimore, 1984). UCSF contributing authors include **Yoshio Hosobuchi,** professor, neurological surgery; **Neil Martin,** neurological surgery residency graduate; **Thomas H. Newton,** professor, radiology & neurological surgery; **David Norman,** associate professor, neuroradiology.

Sadja Greenwood, assistant clinical professor, ob/gyn: Author of *Menopause, Naturally: Preparing for the Second Half of Life* (Volcano Press, SF, 1984).

APPOINTMENTS

William C. Stevens: Appointed UCSF Housing Officer, effective Sept. 1. Stevens, who has been manager of UCSF Parking Operations for some eight years, takes over the campus housing responsibilities from Ruby Freeman, who has been director of the Millberry Union complex for the last 16 months and housing officer for the past 8 years. She is now director of Student Business Services.

Paul R. Barkin: Appointed acting chair of the Pedodontic Division, School of Dentistry. He is an associate clinical professor of Growth & Development. **Penny J. Leggott** will continue to direct the UCSF Pedodontic Service Clinic and **David Rothman** the Dental Service Clinic at Children's Hospital of Northern California, Oakland.

Alan Pardini: Appointed deputy director, Center for Dental Services Research in the Department of Dental Public Health & Hygiene, School of Dentistry, and associate director, National Policy Study Center in Health at the Aging Health Policy Center, School of Nursing. Pardini, a senior research associate, has been the principal staff to the National Policy Center for the last two years.

IN MEMORIAM

Philip K. Condit, '38 School of Medicine. A distinguished authority on infectious diseases, after leaving active duty with the Navy at the end of WWII, he directed successful statewide campaigns against venereal diseases and worked closely with military authorities to control sporadic outbreaks of meningitis among recruits stationed in California. Family suggests contributions be made to UCSF School of Medicine, Dean's Office, Room S 224, 513 Parnassus Ave.
